in the late fourteenth and the fifteenth centuries the dukes of valois burgundy created a composite monarchy in the netherlands an area that had been dominated for centuries by several regional dynasties in this way they laid the foundation for the modern states of the netherlands belgium and luxemburg the rise of the house of burgundy can be read as the success story of a dynasty that in little over a century managed to assemble a great number of principalities thus creating a new state the burgundian takeover however resulted in a modernization of administration jurisdiction and finances the process of unification and the character of the union are the central topics of magnanimous dukes and rising states robert stein mirrors continuity and modernization in burgundian times with the bankruptcy of the former dynasties and the decline of feudal government the powerful towns played an important background role it was only with their support that a unification of the netherlands was possible but this support was not unselfish this study is about the development of power relations and institutions in the field of tension between ruler and subject between centralization and particularism

this book proposes from a cross disciplinary perspective an original reading of current work on residential choice and the decisions associated with it geographers social psychologists economists sociologists neurologists and linguists have worked together in the context of collective research into evaluation choice and decision making in the use of urban and periurban spaces a synthetic outlook has been constructed from these complimentary scientific references the book which is designed as a handbook also

provides the opportunity to set out the different approaches to deal with the models which have been developed in this field

this volume brings together a group of peer reviewed papers most of them presented at a workshop held at university college london 15 17 october 2011 as part of the european research council erc funded project cultural evolution of neolithic europe euroevol 2010 2015

this is a study of continuity and change in rural france based on fieldwork carried out over a period of 25 years and on historical documents spanning more than 300 years producer co operatives have existed in franche comté since the thirteenth century communities there unlike modern english villages are highly corporate robert layton explores the relationships between inheritance rules management of common land household labour and inter household relations as well as the impact on villages of national politics and economy comparison with other regions of western europe allows a reinterpretation of the eighteenth century enclosures in england layton presents a dialogue between ethnography and social theory and argues for a revision of the theories of marx giddens and bourdieu so as to better explain the mechanisms of continuity change and adaptation in social life
